In Heart of London—Soldiers, Rifles and Powder in the City—Inquiry Into Condition of the Navy Nearing an End.

London, May 19.—The "German scare" grows apace and no sooner is one wild rumor laid at rest than another arises to try the nerves of the English people. Last week there was the story of a big German liner filled with troops which, it was alleged, had entered the Humber, surveyed the possibilities of making a landing, and departed without being sighted by the British warships with which the North Sea is supposed to be closely dotted, while yesterday Sir John Barlow, a Liberal member of the House of Commons and a well known merchant, started the country with the sensational suggestion that the Germans have established a depot of arms containing 50,000 Mauser rifles in the center of London, together with 7,500,000 rounds of ammunition for the use of 65,000 trained German soldiers now employed in various capacities in England. As an evidence that Sir John attaches some credence to this remarkable story he has notified War Secretary Haldane of his intention to question him concerning it in Parliament.

The inquiry into the condition of the navy by the special committee of the cabinet which is investigating Admiral Lord Charles Beresford's charges, probably be finished in a few days, with the result, it is said in some quarters, that Sir John Fisher will be removed.

The diameter of the driving wheels is 57 inches each with cast steel centers. The tender truck wheels are 33 inches in diameter. Paige steel tires. The reservoir capacity is 46,400 cubic inches. It is equipped with the latest Westinghouse air brakes.

The locomotive was brought here in charge of Mr. Jack traveling engineer of the Baldwin company and was shipped last Thursday. It appeared in fine shape upon arrival here a day or two before expected. It will be tried out under the direction of Mr. Beck, probably being used first in shifting and then in freight service on the main line of the road.

THE GERMAN SCARE GROWS

Wild Rumors Continue to Stir England

STORY OF GERMAN ARSENAL

To Keep Promise—Armenians Still Imprisoned at Adana—Refugees Driven Out Into the Country to Be Attacked.

Constantinople, May 19.—There are still 190 Armenians in prison in Adana and many of them are in chains. Christians alone are being punished for the recent outrages, and it is apparent that these really guilty are immune. Furthermore, the government has failed completely to make good its promises to return the property taken from Armenians. The special commission sent to investigate the circumstances of the recent lighting is forcing the Armenians from the refugee camps out into the country where there is no protection from the fanatics. The crops are ruined and the reactionaries prevail in the Adana vilayet.

Recently when the loyal government of Marasov attempted to send seven hundred Mohammedan prisoners, concerned in attacks on Armenians, to Aleppo, a mob of Turkish women tried to storm the government house. They kept up their demonstrations for two days. The soldiers threatened to fire on them, but they were finally dispersed without casualties.

More Power for Scheffer Pacha. COAL ROADS NOT TO BLAME?

They Are Not Responsible for Prices, It Is Said.

Philadelphia, May 19.—Testimony tending to show that the burden of responsibility for the present high price of coal cannot be placed on the coal companies was brought out at the hearing yesterday of the suit of the government to dissolve the alleged anthracite coal trust. W. J. Richards, vice-president and general manager of the Philadelphia & Reading Coal & Iron company, said that from 1900 to the present time the total increase in the cost of labor had amounted to 43 cents a ton. He produced figures to show that the wages earned by the men employed by his company had increased from \$8,164,836 in 1898 to \$15,783,327 in 1908.

10TH-INNING RALLY SAVED BOSTON

Defeated Detroit Tigers in a Fine Contest at Detroit Yesterday—Speaker's Batting Was a Feature.

Detroit, May 19.—Boston made a sensational tenth-inning rally yesterday and beat out Detroit, 5 to 3. Both Willett and Cheek were hit hard, and Arrellanes, who succeeded Cheek in the seventh, got his bump, although he kept the home team from scoring. Speaker's batting was the feature, his double in the first scoring Lord with the fifth tally.

Stahl's single in the first had also brought in a tally for Boston after Speaker's double and Hooper had failed. Detroit landed on Cheek in the sixth, scoring Lord with the fifth tally. With one down Crawford tripled and Cobb singled. Cobb stole. Rossmann fled out to Stahl, but O'Leary beat out a high infield bouncer, on which Cobb went clear home. O'Leary stole and Schaefer's single brought him in. Schaefer also stole, but Speaker caught Stange's fly after falling.

In the same inning Boston had made a tally on Hooper's and Stahl's singles and Niles' sacrifice fly to Cobb. The game went along evenly after the sixth with Arrellanes pitching for the visitors.

Carigan started in to break up the game in the tenth, getting a single. Arrellanes sacrificed and McConnell went out to O'Leary. Lord beat out a grounder to Bush and Wolters, running for Carigan scored, when Rossmann made a high throw home. Speaker's triple brought Lord in, while Willett tossed out Hooper. Detroit went out in order in the tenth. The score:
